*The New Sargo Explorer:  
Take common sense from Finland  
and turn it into an exciting  
boating experience anywhere.*

Most things are influenced by both their inheritance and the environment in which they develop. The genes of the Sargo brand are deeply rooted in the strong boatbuilding tradition along Finland's pristine West Coast.

This is also true for Sargo Explorer. We can proudly present a series of very special sport boats based on nearly 50 years of manufacturing knowledge, featuring a complete range of models between 25 and 36 ft. In Sargo Explorer's DNA one can trace the pioneering tradition of the renowned Minor brand. Behind this know-how you find an uninterrupted lineage of one boatbuilding family, the Sarins, who are continuing their success story into a third generation.

Apart from the genes of Sargo Explorer, one should not forget that particular environment in which our no-nonsense boatbuilding philosophy was born. The home of Sargo boats is a region known as Ostrobothnia, where people are known to be tough, practical, independent and inventive. It is only natural that boatbuilding, fishing and shipping have flourished here for centuries.

Sargo Explorer has both common sense genes and a demanding environment on its side. For several decades both of these factors have contributed to the uniqueness of our boat brand. Wherever your favorite waters may be, even a short test drive at the helm of a new Explorer will reveal the secret of the unique Sargo state of mind.

Sargo is crafted for the exploring kind, wherever you are.

*“Half a century ago I started the whole business as a carpenter by constructing boat interiors for other yards and then I built my first wooden boat. The concept of uncompromising quality has been with us ever since.”*

*Mr. Edy Sarin, the founder of Sarins Boats Oy Ab  
(known by the brand Minor 1967-2014)*

*Clean lines, outright practicality and visual flair prevail in Sargo's Scandinavian interior & cockpit design.*

Decades of research and development have taught us one lesson: form always follows function, not the other way round. The more you study the details inside, the more convinced you become of the all-encompassing functionalism.

Sargo Explorer's cabin and cockpit boast a Scandinavian flair of clean lines, well-tested ergonomics, a palette of cool colors and an array of brilliant practical details. This interior is designed to make you feel good not only by looking at it, but in using it.

After all, the idea is to please your rational mind while pleasing your eye.

*"There is indeed something very special about boats made in this part of Finland. I guess it's the Ostrobothnian nature, the skill and creativity of the designers and craftsmen that explain the robust toughness of the product. We're proud of the solid and trustworthy Sargo boat."*

*Mr. Thomas Sarin, CEO of Sarins Boats Oy Ab, son of Edy.*

EXPLORER

*Even in rough seas Sargo's ride is anything but rough. Thanks to her solid build there is very little noise.*

Sargo Explorer's home waters are the Gulf of Bothnia. Its Arctic latitudes are known for their violent storms, choppy waves, treacherous reefs and rocks under the surface. For a few winter months the gulf and the shorelines freeze. The Ostrobothnian boat builders learned their craft in these tough conditions.

This is why Sargo Explorer is a true all-season boat whose speed, handling and ride can take you safely beyond the usual comfort zone of good weather. The tranquil midsummer sunshine can turn into a nasty autumn storm. Therefore we have designed and built Sargo's hull to withstand rough seas. The thickness of the hull and the supporting beams are all designed with safety in mind. A heavy-duty hull keeps the center of weight low enough while ensuring stability and durability.

Sargo's tough and hydrodynamic hull is renowned for its quiet ride, even in rougher seas. Our test crews have spent hours and hours wave-hopping and in tight turns to ensure that our brand lives up to its reputation. For any boat owner and skipper, it is truly comforting to know that your Sargo Explorer offers more safety margin than you might ever need.

You do not have to take just our word for it. Sargo's capabilities as an all-season vessel have been proven as our complete model range (25-36 ft) is internationally certified as B-Offshore.

The solid facts speak for themselves, even if we make very little noise about it.

*"The unique Sargo hull is built to last and perform. Its robust structure is extremely strong and the construction is nothing less than heavy-duty. Of course, we rely on foam filling. The outcome is the unmistakably quiet and smooth Sargo ride."*

*Mr. David Sarin, Head of Production, son of Edy.*

*By now we know you have decided to buy a new boat. Now the question is: are you serious enough for a Sargo?*

For most pleasure skippers boating is ultimate quality time with family and friends. Of course, we do not have to sell you the idea of this lifestyle, rather that you might just be worth a boat brand that is out of the ordinary. Sargo is seldom the cheapest choice. That's why we like to talk about a rational investment. A new Sargo Explorer holds its value. Its built-in quality means that you can expect years of trouble-free boating pleasure. Seriously, we like compromises as little as you do.

*Our attention to details is more than skin-deep. Again, Sargo surprises you in more than one respect.*

Every single Sargo Explorer has been tested at sea. Every component is extra durable and robust to withstand wear and tear.

The Explorer's custom details make a sporty statement, such as the matte black finish on the deck rails and window frames. Every time we build a new Sargo, we aim at something that is more than the mere sum of its parts. Our product development is a never-ending evolution based on careful steps of improvement.

The essence of every Sargo is more than skin-deep. And so are the reasons to buy one.

*Rain or shine, it's just fine.  
Sargo takes you safely  
offshore and back.*

At times the sea can be cruel. Therefore, your safety at sea can never be taken for granted. In Sargo's case safety has always been standard. Sargo standard means that we deliver a generous list of features and equipment that many others offer as extras.

Every Sargo Explorer is standard-equipped with a multitude of safety features: a complete set of the latest navigation instruments, a bow thruster (28' & 36'), an automatic power trim (PTA) and marine window defrosters. Moreover, the largest (28' & 36') Explorers offer as standard three independent batteries, each in their own compartments, for the service, engine start and bow thruster functions – just to enhance your safety. All of our models have a certified installation of world-renowned Volvo Penta Diesel engines, ensuring the ultimate compatibility between the stern drive, engine and the Sargo hull.

Needless to say, there is a comprehensive list of optional equipment to customize your Sargo to your own specifications. Most of the boats we deliver are tailored to the customer's wishes. From a quality control perspective, it is an advantage that the extras can be installed during the manufacturing stage.

When your choice is Sargo Explorer, there are no compromises made as to how well-equipped your boat is. You will always be leaving the harbor on board a very safe vessel.

*"What do we mean by Sargo's tough sportiness? It goes without saying that all of our models are fast (up to 40 knots) and always seaworthy. Sargo is known for its great handling, its comfortable ride along with its stability in turns. Truly, Sargo is a very sporty and smart pleasure boat."*

*Mr. Johannes Sarin, Head of Finances, son of Edy.*

*Our model range leaves the competition in its wake. Every Explorer is tough, sporty – and exhilarating!*

Sargo is a multi-role boat. Every Explorer is suited to many kinds of uses. And the smart interior layouts confirm this.

Sargo Explorer's sporty handling, responsiveness in turns and refined ride characteristics are for those looking for exhilarating cruising at sea. It is lots of fun to drive! One can confidently push a Sargo Explorer towards her limits without even getting close to them.

Rain or shine, you'll be fine. With confidence.

*"Life at sea is in our veins, and not only within our family, but amongst most of our partners, associates and coworkers. Here on Finland's West Coast you meet not only boatbuilders, but people whose other nature is to enjoy the seaside and offshore during all seasons. We know what to expect from our boats. And how to make them."*

*Mrs. Lillemor Sarin, CEO of Sarins Boats Oy Ab 2005-2011, wife of Edy, mother of Thomas, David, Johannes and Susanne.*
